

Ed Kohout

Planetary Astrology

A six-week course on planetary energies
Sundays, Sept 28 – Dec 21, 2008, 11 AM

Learn astrology from the planetary perspective

“Ed’s approach to astrology is highly unique and cutting-edge.” -- Martha Lawrence, author of **Ashes of Aries**

This six-part series on planetary astrology focuses on the central energy of astrology – planets and their aspects and combinations. We will explore astrology beyond sun-signs to enhance chart-reading and character analysis.

Ed’s easy-to-remember classifications of planets and their effects will be outlined and presented with an interactive experience.

Each installment is given twice so the chance of missing anything is minimized. There will be plenty of handouts to take home and use for future reference.

Fee for six weeks is \$100.00. Space is limited to 15 seats, and pre-registration is recommended.
